# Original GARDENA System

MADE IN GERMANY 

For over 50 years, consumers have put their trust in the Original GARDENA System

The connectors for the Original GARDENA System excel through their high comfort of use and reliability as well as durability and highest product quality. And all system parts fit together perfectly – just like before.

Colour scheme allows for easy labelling:

- Light-coloured hose lead – tap connection
- Dark-coloured hose end – dark water stop + output devices

<p><b>Tap Lead</b></p> 	<p><b>Tap Connector</b> For connecting to the tap.</p>  <p>The non-slip outer contour guarantees a trouble-free and convenient assembly.</p>
<p><b>Hose Lead</b></p> 	<p><b>Hose Connector</b> For use on the hose lead.</p>  <p>Simply pull apart to rapidly break the connection.</p>
<p><b>Hose Connections</b></p> 	<p><b>Coupling</b> For extending the hose. Also for transitions from 19 mm (3/4") to 13 mm (1/2") hoses.</p>  <p>Grooved soft plastic grip for comfortable handling.</p>
<p><b>Hose Repairer</b></p> 	<p><b>Hose Repairer</b> For rapid and reliable hose repairs without the need for tools.</p>  <p>Specially formed, patent pending sleeve nut for high hose retention force.</p>
<p><b>Hose End</b></p> 	<p><b>Water Stop</b> For hose ends with integrated water stop function: Decoupled = automatic water stop. Coupled = water flows.</p>  <p>Makes it easy to switch between output devices without having to go back to the tap.</p>

# GARDENA Sprinklers

MADE IN GERMANY

## Ideal watering for every garden

Whether large or small areas, GARDENA offers for every garden and lawn the ideal sprinklers. All GARDENA Sprinklers are made from premium materials and guarantee a reliable and even watering.

### Circular and Multi-pattern Sprinklers

From the simple small area sprinkler to the technically sophisticated top model.

With multifarious settings.

### Oscillating Sprinklers

For even, puddle-free watering of square and rectangular areas.

Long life durability and robustness through frost protection and metal elements. Solid stand.

Simple and intuitive setting options.

The right sprinkler for every garden size and demand.

### Wide-Range Sprinklers

For areas up to 490 m<sup>2</sup>. Fine adjustment to sector or full circle water distribution.

### Large-Area Irrigation

AquaContour automatic waters virtually every garden shape up to 350 m<sup>2</sup> individually

The AquaContour reaches every corner of the garden with the storage of up to 50 contour points.

Two different garden shapes, e.g. in front of and behind the house, can be easily programmed and recalled at any time.

The operating pressure (bar) determines the watered area.

The performance data given were obtained with an operating pressure of 4 bar at the sprinkler.

# GARDENA Hose Trolleys / Reels

MADE IN  GERMANY

The hose is always stored in an orderly manner but ready at hand

With the hose trolley, the hose is always neatly rolled and ready for use. Bothersome pulling and carrying of the hose through the garden is no longer necessary

## Hose Trolleys

The hose trolleys in the CleverRoll series convince with many innovative properties.

For particularly high loads, metal models are also available in the CleverRoll series.

## Hose Reel

High standing security through special, three-corner construction with deeply placed centre.

Ergonomic handle for easy transport.

## Wall-fixed Hose Reel

For convenient roll-up of the hose in standing.

Hose protection guide for easy rolling and unrolling of the hose, even around corners (Art. 2650-20).

# GARDENA Textile Hoses

MADE IN GERMANY 

## The robust and agile Textile Hose Liano™

GARDENA's premium quality with a new look: The GARDENA Liano™ consists of an inner hose covered in a highly durable textile fabric. Even when you drag it over the terrace or it brushes up against a prickly rose bush, it won't damage the hose. It is convenient to use, with no annoying twists or kinks. Unique, exclusive technology with a 30-year warranty

### Maximum flexibility

- For excellent maneuverability: does not kink or twist, even in cold temperatures

### Light weight

- For excellent maneuverability: does not kink or twist, even in cold temperatures

### High durability

- Excellent burst resistance due to durable woven fibre technology

### Safe, leak-free connection

- A tight fit thanks to an extended clamping nut that prevents the hose from slipping of

### Easy storage

Works perfectly on hose reels and trolleys

# GARDENA Sprinklersystem

MADE IN  
GERMANY 

## Convenient, reliable and easy installation

Pop-up Sprinklers that can be permanently installed below ground keep your lawn looking beautiful and vanish out of sight again when their work is done.

The GARDENA Sprinklersystem range:

- Reliable and high-quality Pop-up Sprinklers
- Clever and innovative system modules
- Automatic drain valves for frost protection
- Automatic controlling possibilities

### Patented Connection Technology "Quick & Easy"

The numerous system components ensure a flexible installation of the system for various lawn areas.

- Pipe assembly / disassembly by turning the connecting pieces 140°

### Pressure Regulator

Maintains the water pressure of the entire system (valves, pipelines, sprinklers) to max. 3.1 bar. The compensation of pressure fluctuations results in advantages:

- Constant pressure for all included components
- Improved spray quality of the Sprinklers

### Pop-up Sprinklers

For all sizes of lawn areas with excellent features:

- SD range for small-sized areas
- MD range for medium-sized areas with rotary spray pattern for low precipitation rate
- OS140 Pop-up oscillating Sprinkler for irrigation of rectangular and square areas

# GARDENA Pruning Loppers

## Easily achieve more cutting power

Innovative solutions and light products ensure extra comfort and superb cutting results.

### EasyCut

Classic pruning loppers. Cutting branches is easy thanks to the low weight and excellent ergonomics.

### EnergyCut

Pruning loppers with integrated transmission for powerful cutting.

The gear ratio guarantees huge reductions in effort, even when cutting stronger branches.

### TeleCut

Telescopic pruning loppers. Adjustable lever arms make precise cutting of far-away branches easy

### SlimCut

Pruning loppers with 0° opening width and integrated gear for more power.

The long aluminium handle and extra-slim head mean these loppers are ideally suited to thinning dense bushes and shrubs.

CUTTING TECHNOLOGY

# GARDENA Spreaders

Innovative and convenient – create a beautiful lawn effortlessly

The right model for every garden size and every application.

No more materials trickling out! Manual opening and closing prevents spreading materials from leaking accidentally. Rotation technology for efficient and quick application.

## Small Caster S

For targeted distribution of spreading material.

## Hand-Held Spreader M

Ideal for small to medium-sized lawns and city gardens. Quick and easy thanks to intuitive crank mechanism.

## Spreader L

For medium-sized gardens. Spreading material no longer escapes accidentally. Handle with open/close function. Patented closure strip with soft plastic lip. Ergonomic quantity setting in upright position.
